CARTUCCE DI INCHIOSTRO ORIGINALI EPSON

# NUOVE CARTUCCE DI INCHIOSTRO PER OGNI ESIGENZA

Con la nuova gamma di cartucce di inchiostro separate Epson scegliere la taglia giusta per le proprie esigenze non è mai stato così facile. La serie Volpe è conveniente e ideale per chi è attento ai costi. La serie Mela permette di stampare più pagine con meno sostituzioni mentre la serie Cervo XL è la scelta migliore per la stampa di volumi elevati. Le nuove cartucce Epson semplificano la scelta e riducono i costi di stampa.

Codice della cartuccia o della confezione multipack

Contenuto della confezione e capacità delle cartucce di inchiostro

Stampanti correlate

Convenienti cartucce di inchiostro separate per bassi volumi di stampa

Stampa di più pagine a un minor costo per pagina

Cartucce per elevati volumi di stampa a basso costo

## The benefit of using Samsung original supplies

Samsung printing supplies are specially designed to work together with Samsung printer. We assure optimal print quality with sharp, clear output from first print to last.

Remanufactured	Key differences	Comparison of printout quality
	<b>Smudge</b> Yellow streaks and smudges print across the document.	
	<b>Smudge</b> Red streaks and smudges print across the document.	
	<b>Streaks</b> During printing, image density is inconsistent and horizontal and vertical lines appear.	
	<b>Ghost effect</b> Red dots are printed on the document background.	
	<b>Uneven fill</b> The printed characters are blurry and faded so the text cannot be read.	

This information is based on test results of LGA. 2007 Cartridge Comparison Study test results provided by LGA. Testing performed on CLP-510D7K, CLP-510D5C, CLP-510D5M and CLP-510D5Y laser cartridges. Tests were performed under laboratory conditions and actual performance may vary.

### Imagine security labels to prove it is original Samsung

#### Verification of colour changing film

The label changes colour when viewed from different positions. When viewed head-on at an angle of 0° the film is clear. At a viewing angle of about 60° the colour changes to cyan.

#### Verification of colour changing embossed "Samsung Logo"

The embossed characters change colour between red-gold and blue when viewed from different angles. Verification of the embossed character is possible by feeling the texture.
